qubi3

The next generation solution for managing your workspace

Smart, flexible and intelligent it makes maximum use of every desk, meeting room or huddle-space. It optimizes your floorspace and minimizes your carbon footprint
Features

- Connects via a ResourceXpress server (on-premise, SaaS or private cloud) to MS Outlook/Exchange, Office 365, IBM (Lotus) Notes, G-Suite Calendar and a range of other supported booking systems. Also works with ResourceXpress in non-integrated (local) mode

- Interactive modes for check-in, check-out, extend and instant, on-demand booking – all simply carried out using RFID cards or tags in authorized mode or touch controls if authorization is not required

- Standard Mifare RFID reader with optional upgrade for a range of other card standards

- Simple and secure low cost alternative to traditional meeting room touch screen

- 5 way routing cable exit options for optimum concealment of power cables when mounting on a desk, workspace divider or outside a meeting room wall (glass or partition)

- Wi-Fi connectivity with secure HTTPS option

Technical

- Power in via standard micro USB port - 1W @ 5VDC

- Network - WLAN 802.11 b/g/n, single band 2.4GHz*

- Low pro ile 5.1" x 3.9" x 1" (130 x 100 x 25mm)

- Available with 13.56MHz and/or 125KHz RFID readers

- No virus or malware vulnerabilities as uses a hard coded application with no operating system

- Requires a local or cloud based ResourceXpress server

- Supports standard DHCP or static IP addressing over HTTP or HTTPS (SSL)

*Note: We strongly recommend a dedicated Qubi 3 only SSID Access Point with a concurrent connection capacity exceeding planned Qubi 3 volume.
