qubi3C

Secure and flexible workspace booking

Secure, flexible and intelligent it makes maximum use of every desk, meeting room or huddle-space. It optimizes your floorspace and minimizes your carbon footprint

Features

- Connects via a ResourceXpress server (on-premise, SaaS or private cloud) to MS Outlook/Exchange, M365, G-Suite Calendar and a range of other supported booking systems. Also works with ResourceXpress in local (non-integrated) mode

- Interactive modes for check-in, check-out, extend and instant, on-demand booking – all simply carried out using RFID cards or tags in authorized mode or touch controls if authorization is not required

- Standard Mifare RFID reader with optional upgrade for a range of other card standards

- Secure and simple low cost alternative to meeting room screens

- 5 way cable routing for optimum concealment of connection to the Connect network adapter when mounting on a desk, workspace divider or outside a meeting room wall (glass or partition)

- High security network connectivity options

Technical

- Power in via PoE (802.3af) or 5v micro USB port

- Network - Dual band 2.4/5 GHz WiFi (roaming supported) or 10/100 Ethernet

- Low profile 5.1" x 3.9" x 1" (130 x 100 x 25mm) - QUBI display only

- Available with wide range of RFID reader options for most cards and fobs on the market

- WPA2/WPA3- Enterprise (802.1x) network security

- Requires a local or cloud based ResourceXpress server

- Supports standard DHCP or static IP + central configuration management and firmware updates
