

# February Newsletter

Q1, 2026

---

## *From the desk of Linzi Mason, Managing Director*

**Hello, and welcome to the first edition of our quarterly newsletter for 2026. What a start it's been!**

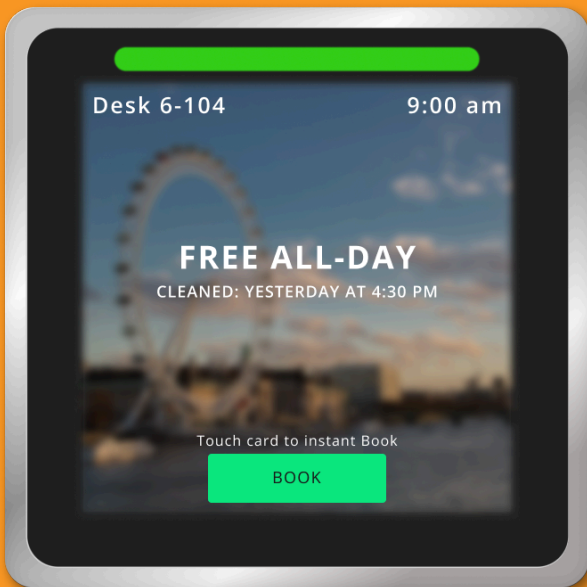

We've hit the ground running this year.

From welcoming new clients to the ResourceXpress (RX) solution to expanding our global footprint through international reseller partnerships, momentum has been building fast.

Simultaneously, we've been forging new strategic alliances with complementary hardware manufacturers and software developers to strengthen our ecosystem and unlock further value for our customers.

Our development team has been nonstop. We are excited to show clients the results of what they have been asking for:

---

# February Newsletter

Q1, 2026

✓ **Greater Customisation**

✓ **Increased Versatility**

✓ **Expanded Language Options**

Client feedback continues to drive our roadmap. Very soon, we'll roll out enhancements to the RX mobile application to make it easier to search for, locate, and navigate desks and meeting rooms while improving the overall user experience.

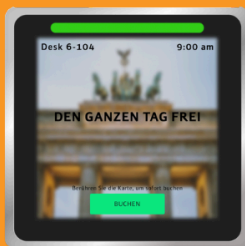

ISE 2026 was another major highlight. It gave us the opportunity to reconnect with key hardware partners including Crestron, ladea, and Qbic. Exciting new integration projects are already underway, and we can't wait to share what's next.

Next up, we'll be exhibiting at The Workplace Event this April at the NEC in Birmingham. Stop by our stand to meet the team and see what's coming next.

## It Starts with You

Your feedback and ideas are already guiding **ResourceXpress (RX)** in 2026. Together with our clients, we're developing solutions that make the experience clever, cohesive, and convenient.

A preview:

## TD-360 Device Customisation

Desks.  
Bland. Boring. Basic.

### Until now.

With the new enhancements to our TD-360 desk device, energise your environment with custom colour themes, stylised fonts, and flexible language options. Add effortless user registration with RFID cards so users can simply tap and go.

### Available now.

## Upcoming: RX Mobile Notify App

### RX Work Places in your pocket!

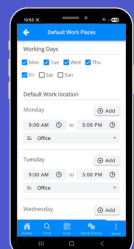

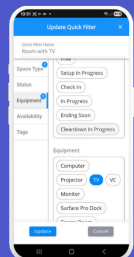

Whether you're in the office, at home, or on the go, our *Microsoft Teams* integration keeps you connected in a flash!

Now we're taking it further. Notify introduces enhanced search and improved location navigation, making it faster and easier to find desks, book meeting rooms, and get where you need to be.

A new filters page lets you customise your search your way, with the ability to save your filters for quick access anytime. Your preferences travel with you, so your experience stays consistent wherever you are.

### Still using version 4.4.4?

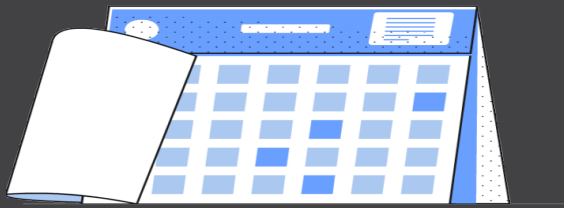

This will soon be discontinued so switch to Notify now to enjoy added convenience and improvements!

## Looking Ahead

Hearing from our clients and seeing how our software transforms workspaces pushes us to keep evolving. Take a closer look at the results achieved in our latest [client case study](#).

By listening closely, we're shaping a clear roadmap for what comes next and refining our vision for future innovations, such as:

### Booking Policies

*Dynamic zoning, done properly.*

Booking policies that put the right teams in the right spaces on the right days.

Replace guesswork and wasted areas with stronger return on investment and space that performs at its full potential.

[See how space optimisation benefits you.](#)

### Customised Reporting

Customised reporting, built around you.

Give admins the power to tailor scheduled reports to suit their needs.

Clear insights. Less noise. Smarter decisions.

Want to know what's coming next from RX?

## Let's Meet!

This year, we're making the most of every chance to connect with you. We value sharing ideas, collaborating with new and existing partners, and, of course, the ever-important coffee catch-ups.

“At **Integrated Systems Europe (ISE)**, it was massively beneficial and hugely productive to meet up and discuss our next exciting steps with our valued resellers and strategic partners from across the globe!”

## Employee Spotlight

This quarter, we're shining a light on **Rachel!**

After graduating from university in 2025, Rachel joined the RX marketing team. Now five months in, she's continuing to build her skills across a range of projects.

Rachel, Marketing Apprentice.

### Why did you pursue a role in marketing?

*"I studied Creative and Professional Writing, so marketing felt like the natural next step for me."*

### What are you looking forward to this year?

*"I'm looking forward to growing in my career and my two upcoming holidays – Disney Paris and Prague!"*

### What book are you reading?

*"I'm currently reading Six of Crows by Leigh Bardugo."*

---

## It Continues with You

Thank you for choosing us.

We're focused on delivering impactful results and supporting your business goals from day one. Start the year strong with RX supporting your hybrid workplace:
